## ***“The American Presidents and their Jewish Perspectives from George Washington to Donald Trump”***

How have American Presidents interacted with Jews and Jewish issues in the United States over the course of 230 years?  
Explore this fascinating topic that leads one to truly gain insight into the US Presidents' attitudes towards the "tribe."

*Rabbi, Dr. Leon Weissberg holds a Doctorate degree in Education and a Masters in Jewish Studies. As the former Director of the March of the Living for the Southern Region & for Miami-Dade he has led well over 2500 teens and hundreds of adults to Poland and the sites of the greatest catastrophic event of the 20th century.*

*Rabbi Weissberg began his educational career in the New York City schools until he relocated to south Florida 43 years ago to become the principal of a Jewish Day School in Hollywood. Subsequently he became the director of the Office of Jewish Education for the Jewish Federation and then the Head of School for the Donna Klein Jewish Academy in Boca Raton. Although he has technically retired, Rabbi Dr. Weissberg has always loved teaching and has maintained a role in teaching by being one of the first educators in the Florence Melton Adult Jewish Education program some 33 years ago and continues to teach in the program in Aventura and in Boca Raton. As well he has been teaching American History for the past five years at Broward College.*

*In his retirement, he is repeatedly called upon to offer lectures at various universities and as well as various organizations in South Florida. He continues to lead groups to Israel and Poland. But most remarkable is the fact that four years ago he decided to become ordained and received his Semicha from Chabad.*
